The "Outdoor Living Room" — a cool, secluded spot, comfortable and inviting to every member of the family and their guests.

THE LANDSCAPE DEPARTMENT

One would not think of building a house without skilled carpenters and plans to go by. So our organization has trained men for developing plans. Upon their knowledge and skill in arranging and grouping plant types depend the finished picture of the home and gardens.

These men know that each place must be treated individually. The planting must be designed to bring out and accentuate the existing charm.

In order that the designer may do effective work, he must have a reliable organization back of him. Therefore we have a carefully trained and supervised planting department to execute the plans and ideas approved by you.

We are justly proud of the type of men in our service. Some have been with us for over twenty years. Dependability, courtesy, and thoroughness are our watchwords. We have clients who have been customers for over twenty-five years.

Will you not investigate our services? There is absolutely no obligation.

Five or more plants at price of 10 rate; 25 or more at 100 rate

Hardy Perennials

As the best effects are usually obtained by planting Perennials in groups of not less than three, we are offering them in that quantity, rather than singly. If only one plant is desired, the price will be one-third the rate for three.

Please note that five or more plants will be priced at the ten rate, and twenty-five or more at the one hundred rate.

Varieties marked with an asterisk (*) are especially adapted for the Rock Garden.

Key to abbreviations used for color, height and period of bloom:
